Overlap the pages

6

Tie the string

7

Create your story

Materials

What you need

Machinery: Lasercut or Cutting plotter

Materials: Piece of paper 50x70 cm
Colorful paper
Wool wire

Tools: Scissors

*Think or invent a story. Let yourself be guided by the emotions evoked by colours and shapes defined by Kandinsky (triangles, circles and squares). Use the forms to create the storytelling for every pages and share it.
The forms can be recomposed, be "read" differently every time for a never ending experience.*

Design by Matteo Viscogliosi
