ما هو ستوديو 5/6؟

تماشياً مع استراتيجية برنامج الشباب الرقمي لوزارة المواصلات والاتصالات، يهدف ستوديو 5/6 إلى الإرتقاء بقدرات الشباب عبر تطوير مهاراتهم العلمية في بيئة العصر الرقمي. تم بلورة فكرة ستوديو 5/6 ليكون منصة تقدم للمجتمع العديد من الفرص للحصول على المعرفة العملية في مجال التكنولوجيا وأدواتها، حيث ستتاح الفرصة للشباب والشابات لتطوير مهاراتهم في حل المشكلات والتفكير النقدي والإبداعي مما يسهل عليهم أن يصبحوا صناعاً للتكنولوجيا في المستقبل.

What is STUDIO 5/6?

In line with the Ministry of Transport and Communications' Digital Youth Strategy, STUDIO 5/6 is mainly aimed at nurturing youth as digital learners by sharpening their 21st century learning skills, as they develop in an all-pervasive digital environment.

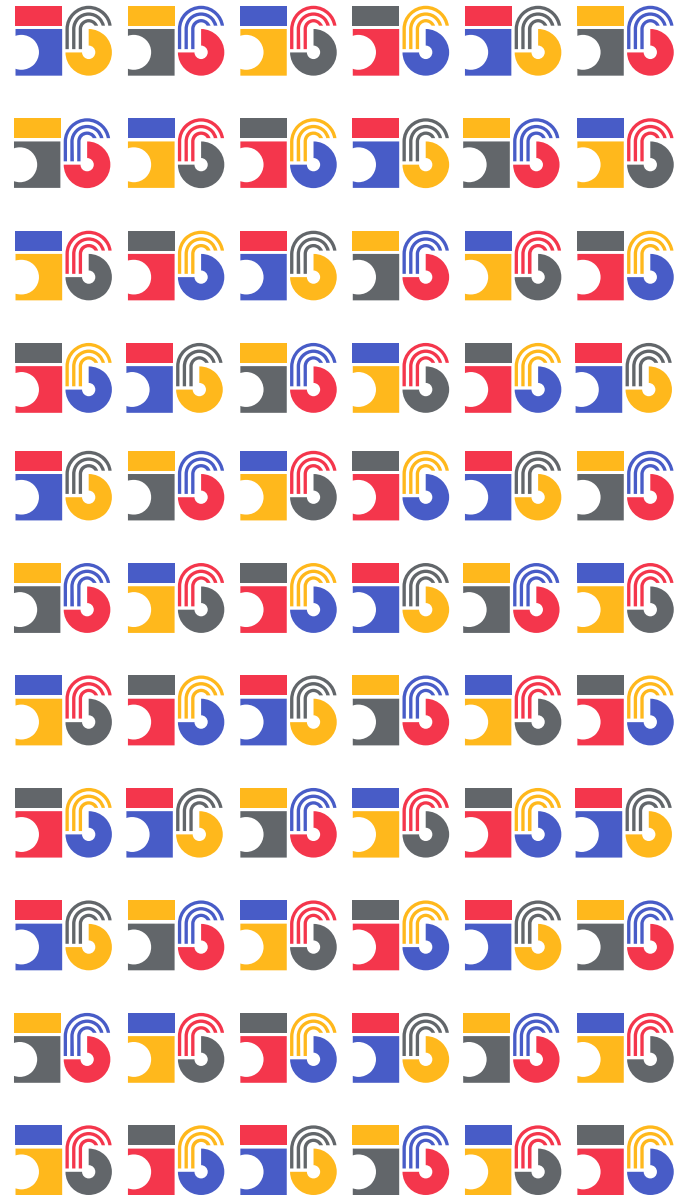

In fact, STUDIO 5/6 is envisaged as a community platform that offers technology and allied equipment support for hands-on learning opportunities. Here youth can develop their problem-solving, critical thinking, creativity and innovation skills. This will also develop young people's knowledge of technology and help them to become future creators of technology.
