

Initial Ring Part 1

Setting the Ring

1. Login to Tinkercad and click “create new design”.

www.tinkercad.com

Sign in

Email or Username

Create new design

2. Rename the design your first name then IR. *example: Laura IR*

3. Drag the ring shape into the workplane. *Scroll down under Basic Shapes to find the ring.*

4. **Size the ring to 38mm for the length and width. Keep the height of the ring the same- 5mm.** *Click on the shape, then click on one of the white boxes. In both number boxes type in 38.*

Great work!

If you are in the classroom have your work checked by a classmate or the teacher.
If you are learning from home your teacher will check your work before moving on.
