

Animation for the Scene

What is STUDIO 5/6?

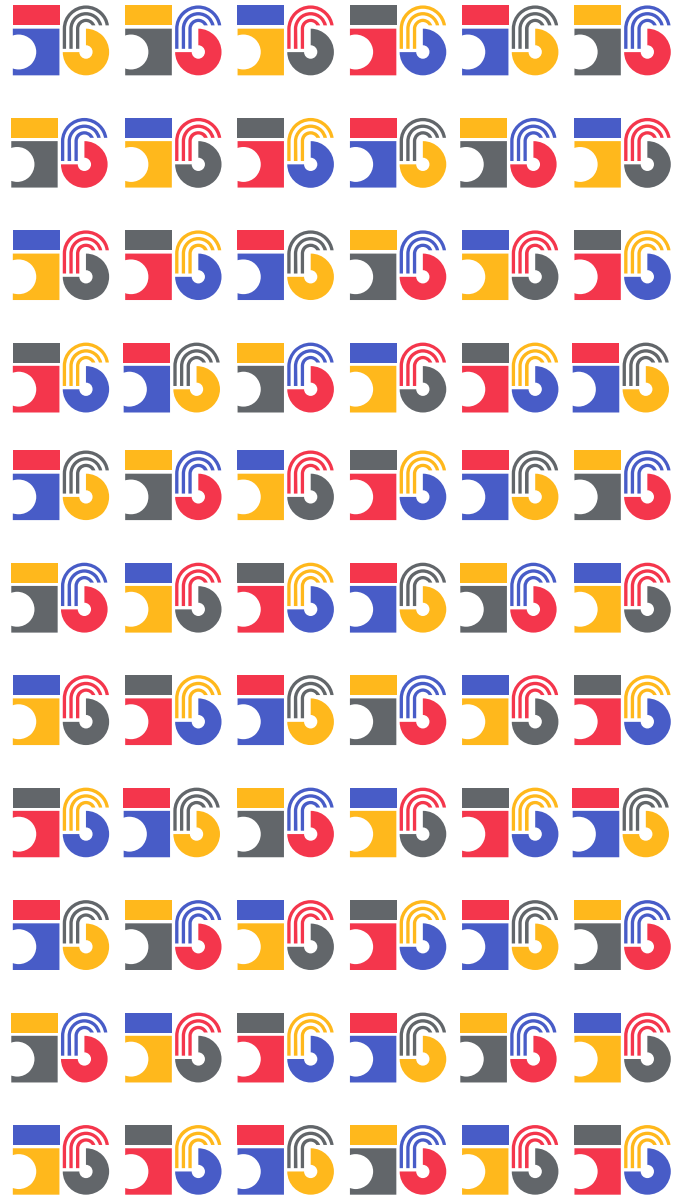

In line with the Ministry of Transport and Communications' Digital Youth Strategy, STUDIO 5/6 is mainly aimed at nurturing youth as digital learners by sharpening their 21st century learning skills, as they develop in an all-pervasive digital environment. In fact, STUDIO 5/6 is envisaged as a community platform that offers technology and allied equipment support for hands-on learning opportunities. Here youth can develop their problem-solving, critical thinking, creativity and innovation skills. This will also develop young people's knowledge of technology and help them to become future creators of technology.

SUMMER SESSIONS ONLINE _ July/Aug

We are keep going with our program of in the month of July & August too. Qatari makers will join 5 days of program to learn digital tools and create on the last day a final project, that will be evaluate and get a certificate .

What is Animation

Animation is a method in which figures are manipulated to appear as moving images

Why Do We Need Animation

Animation is important because it makes us be able to tell stories and communicate emotions and ideas in a unique, easy-to-perceive way that both small children and adults can understand.
