

## How to build the toy Linkki through a prototype that replicates it.

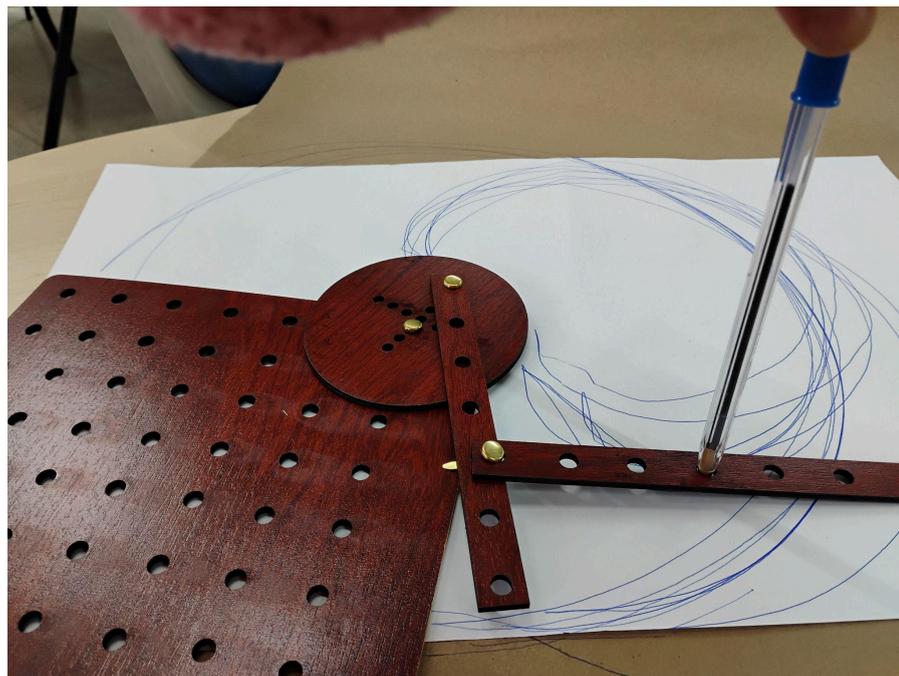

Website: <https://linkkiproject.com/?srsltid=AfmBOoqcHVEI2nLmu4cDJhGQdDxq7hzQOpfYuwo58RPjrNQGfAQXd7N>

After printing or adapting the files to your context and needs, here are some tips to assemble the parts.

1. Have the separated parts

2. Depending on the motion you would like to explore you can grab a circle or wheel and attach it to the peg board with the brad fasteners. I strongly suggest to try other connectors too. Then connect the wheel to one or two bars. The different holes let you try different positions with the wheels and bars.

### 3. Other examples
