### Autobiography of a Plastic Bottle

I am a plastic bottle. I was made at the factory. A man bought me at a supermarket. He drank the water from my bottle. He threw me away in a rubbish bin.

When I was about to lose hope, another man brought me back home and washed me as I was as smelly as a pig. He made me into a useful thing.

I feel happy now. Please recycle me and don't throw me away. I may be useful. You will never know if you need me anymore. Don't juggle a book by the

cover. Please keep the environment clean.
