Adhesive Decision Chart

Which type of adhesive should you use?

Material type:	Examples:	Use this adhesive
Light & flat	Paper, thin cardboard, ribbons, foam sheets, felt cloth, aluminum foil, plastic	Stick Glue White glue Double-sided tape
Light / bumpy / odd shapes	Toothpicks, satay sticks, pom-poms, strings, pipe-cleaner, small plastic items, straws, felt cloth, aluminum foil, netting	UHU glue White glue Foam Tape
Heavy or thick	Ice-cream sticks, foam sheet, thick cardboard, bottle caps, plastic bottles	UHU Glue Double-sided tape Foam Tape

Sculpture Building

Refer to the sketch in your journal. Focus on:

- Creating **abstract forms** that represent each family member
- Arranging forms to **show family relationships** and interactions
- Applying **harmony** through consistent material choices, colours, or repeated shapes
- Applying **at least 1 attachment** techniques you have learnt during practice lesson.
- Ensuring structural **stability**
