

Programming with Micro:bit

Level 3 Activity (Advanced) : Sending Secret Encouraging Messages

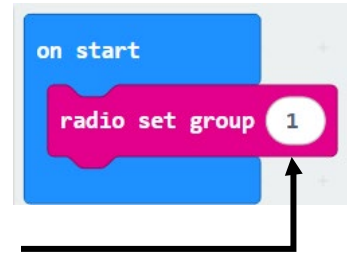

Name : _____ Group : _____

Use radio communication to send messages to another group.

Examples:

- Good job!
- Keep trying!
- You can do it!

In order to communicate to another Micro:bit successfully, both Micro:bits **MUST** be in the same **radio set group** (number from 1 – 200).

Instructions for Receiver :

- 1) Import **radio-receive.hex** from thumbdrive.
- 2) Change “**radio set group**” to the same number as the sender.
- 3) Download the codes into your Microbit.
- 4) Wait for Sender to send you the secret message.
